

Troubleshooting Common Pipeline Failures

Kyler Middleton

NETWORK AND DEVOPS ARCHITECT

@kymidd www.kylermiddleton.com

Overview

Code-based failures

Pipeline issues

Tool incompatibility

Code-based Failures

Demo

Test new code as thoroughly as possible

Require approval on PRs

Peer Review pipeline updates

Pipeline Issues

Demo

Internal failures

- Pipeline file updates
- Intermittent compute env failures

External failures

- Connectivity failures
- Invalid permissions

Tool Incompatibility

Demo

Verify installed versions of tools

Install new version of tools
